

Would Have White House.
Not C.I.A., Do Evaluating

WASHINGTON, Aug. 6 (AP) — A White House clearing center for the final evaluation of information gathered by the Central Intelligence Agency was proposed today by Senator Mike Mansfield of Montana.

The Senate Democratic leader in an interview said the CIA should be limited to the gathering and reporting of information, without the authority it had exercised to analyze the ever-all import of the collected data.

President Kennedy has not discussed with Congressional leaders any plans he may have for overhauling the agency, headed by Allen W. Dulles. Mr. Mansfield said. Mr. Dulles is expected to retire late this year.

The Montanan made it clear he was giving only his personal views in advocating changes. He had previously proposed that Congress set up a committee to oversee C. I. A. activities, but had never been able to muster

"I would hope that the C. I. A. will become more autonomous in its activities, the scope of its efforts would not be limited to speeches, for instance."

I think the agencies should be asked to inform the public and should be restricted to reporting only findings. These data should be channelled to the departments primarily concerned.

The department also has been their evaluation of the international farmers' movement. But the trend, even when combined with a small, highly qualified group of men, was toward a possible connection to the International.

Indicators are that President Kennedy is not a man who is going to let the world know what he is doing.

DETROIT, Aug. 6 (UPI)—United Auto Workers' chief national executive here today announced that he would be leaving a \$100,000-a-year job to become president of the Detroit Motor Club.

The same procedure can be applied for 1200 and 1500 Hz. For 1200 Hz, the frequency of the 1000 Hz tone must be increased to 1200 Hz. For 1500 Hz, the frequency of the 1000 Hz tone must be increased to 1500 Hz.
